

Let's get
together
and help
make a
difference!

Alameda
County Tobacco
Control Coalition
invites you...

Wednesday, February 24, 2010
3:00 - 5:00pm

First 5 Alameda County, Every Child Counts
Conference Room A
1100 San Leandro Blvd
San Leandro, CA

Even as we celebrate our successful efforts at reducing tobacco use and winning new secondhand smoke protections and retailer licensing in our County, our programs are all at risk of being cut after June 30th.

Every single rainstorm has a silver lining and this is one of them. There are two very critical tasks that we need your help on:

A campaign to retain our Tobacco Master Settlement funding and a campaign to increase California's tobacco tax. We will be providing critical instructions for each at the meeting so please come.

This is all hands on deck time so please come and help make sure that the tobacco industry can never again regain its foothold on our communities. The only thing between the millions of dollars they spend every day on recruiting our youth, buying votes, and keeping those already addicted to stay that way – is us and our programs.

For more information, please contact Susan Miranda
